

# TRANSFORMING THE LIVES OF **SOFTWARE ENGINEERS**

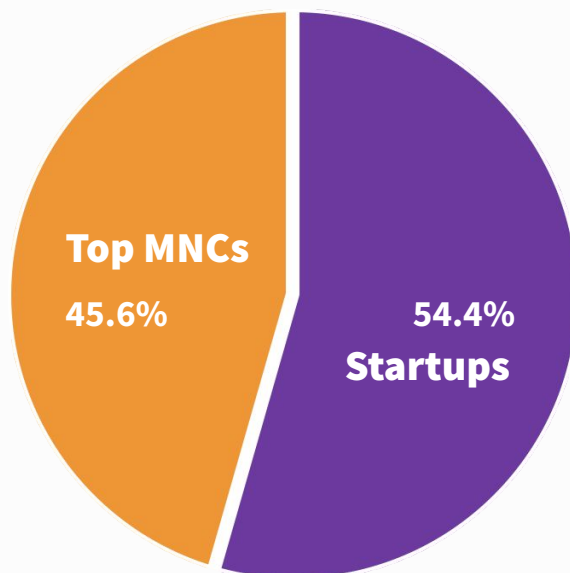

SINCE 2019

**SCALER**  
ACADEMY

# A Story in Numbers

1

Of all placed students, 45.6% work at top multinational companies\* including tech giants like PayPal, Amazon and Microsoft. 54.4% continue to create a big impact at startups\*\*.

## 43.8%

The percentage of placed learners who are currently in **SDE-2 POSITIONS OR HIGHER**, with some securing leadership positions at fast-growing tech companies (eg an Architect at a leading OTT and CTO at a solar energy startup)

## 4.5X

While the focus is on creating the finest learning outcomes, **return on investment<sup>^</sup>** for our learners is right up there. For folks who joined us while at product-based companies, the number is 5X.

<sup>^</sup>Roi calculation: Salary increase pre- and post-Scaler divided by the price of the course as of today

\*MNC: >1000 engineers and majority operations in >1 country

\*\*Startup: <1000 engineers and majority operations in only 1 country

# Our Alumni Work At

2

## Top 10 MNCs

## Top 10 Startups

The startups that our learners have been placed at are pretty diverse in terms of size as well. While there's the likes of late-stage ones such as Delhivery which has raised \$1 billion across multiple rounds, there's also ones like Salesken which are early into the scene.

One common factor, however, is that most of the startups have received investments from marquee investors like Sequoia Capital

# Impact At Scale

3

One of the world's largest technology companies hires more from Scaler than India's top 20 engineering colleges, including the IITs.

## Talking about Salaries

As a result of the highest quality learning and guidance, our learners have been able to secure stellar salary packages post course completion.

### CTC BUCKETS

Years of Experience	Salaries
< 3 Years	₹ 16.5 LPA
3-7 Years	₹ 22.5 LPA
8+ Years	₹ 39.5 LPA

## ₹ 1.5 Crore

The highest salary package by a [Scaler learner](#) (at a global tech firm).
